EXPERIENCE

June 2016 – Product Advisor, *Microsoft*

Present

- Teach Hour of Code and STEM workshops, for children, through numerous ways and provide a fun experience throughout the class so that the younger generations are inspired to have a future career in STEM
- Help customers discover, buy, use, and love Microsoft technology solution and services that meet and exceed their individual expectations
- Feel empowered to engage with peers, store leaders, corporate and field team members in the development of innovative ways to make a larger impact in our customers lives

SKILLS

- C++
- HTML5
- Windows/Mac/Linux
- CSS
- Javascript

VOLUNTEER

Fundraising Volunteer – *Northwell Health*, Dec 2016

A few people from my team at Microsoft went to Cohen Children's Medical Center to let the children, who are patients of the hospital, come down to the lobby to play with our Xbox consoles

Meal Server – *Best Buddies New York*, May 2018

My coworkers and I handed out snacks and drinks to the people and children who took part in the walk for cancer

Volunteer – *Only Love Foundation*, April 2019

I created and decorated cards filled with words of encouragement for children who are living in underdeveloped countries

Volunteer – *The Princess Project*, Aug 2019

I created a bunch of hair pins and decorated them with jewels for young women who could not afford to go to prom
